Summary

Entry-Level Software Developer with hands-on experience in Full Stack Python Development using Python, Django, HTML, CSS, and JavaScript. Worked as a Software Engineer Trainee at Inovvantage for 2 months, contributing to application development, debugging, and feature enhancement. Completed a 1-month internship at Cognifyz Technologies, gaining practical exposure to real-world projects and collaborative development. Skilled in developing RESTful APIs, integrating frontend and backend systems, and managing MySQL databases. Also completed a Full Stack Python Development course from Naresh I Technologies. Passionate about building scalable web applications and continuously learning modern technologies.

Technical Skills

Programming Languages: Python, JavaScript

Frontend Technologies: HTML5, CSS3

Frameworks: Django, React.js

Databases: MySQL, SQLite, MongoDB

Web Technologies: RESTful APIs, CRUD Operations, User Authentication, API Integration **Version Control:** Git, GitHub

Experience

Python Development Intern | Cognifyz Technologies Oct 2025 – Nov 2025

- Designed multi-section front end with advanced form validation and dynamic DOM updates.
- Implemented secure signup/login, password hashing, protected routes, and API CRUD operations.
- Integrated MongoDB and environment configuration using .env.
- Added UI animations and automatic redirect to login after account creation.

Software Engineer Trainee | Inovvantage Dec-2025-Jan-2026

- Assisted in developing and maintaining web applications using Python, Django, HTML, CSS, and JavaScript.
- Collaborated with the development team to debug issues, test features, and improve application performance.
- Worked on frontend and backend tasks, including database integration and API handling.
- Gained hands-on experience in software development lifecycle, version control, and team collaboration.

Projects

Tweet Application ([GitHub](#))

Technologies: Python, Django, HTML, CSS, JavaScript, Bootstrap, SQLite/MySQL, REST API, Git, GitHub, Render, Netlify

- Developed a full-stack Tweet Application using Python, Django, HTML, CSS, and JavaScript.
- Implemented user authentication, tweet posting, editing, deleting, and profile management features.
- Integrated database management using SQLite/MySQL for storing user and tweet data.
- Designed a responsive and user-friendly interface with CRUD functionality and secure login system.

Weather application ([GitHub](#))

Technologies: Python, Django/Flask, HTML, CSS, JavaScript, Bootstrap, Open Weather API, SQLite, Git, Render, Netlify

- Developed a full-stack weather application using the Open Weather API for real-time weather updates.
- Implemented city-based search displaying temperature, humidity, wind speed, and weather conditions.
- Integrated REST APIs with error handling and deployed the backend on Render and frontend on Netlify.
- Utilized HTML, CSS, JavaScript, Python, Git, and GitHub for development and version control.

Education

- Maharaja Sriram Chandra Bhanja Deo University**
Master of Computer Applications (CGPA-8.26)
- Bhadrak Autonomous College**
Bachelor of Computer Applications (CGPA-8.18)

2023 -- 2025
Baripada, Odisha

2023 -2025
Bhadrak, Odisha

Certificates

- Software Engineering – NPTEL
- Full Stack Python Development course – Naresh I Technolog
- Deloitte Australia Technology Job Simulation on Forage – June 2025
